

BIG ATTENDANCE AT POULTRY SHOW

Exhibition Rooms Crowded
With People Throughout
the Day.

SOME OF THE BIRDS
ALREADY SHOW FATIGUE

Utah Pigeon Club's Creditable
Exhibit Attracts Much
Attention.

The second day of the poultry show at 322 South Main street more than surpassed the expectations of its promoters. The rooms were well filled with people all day long and farmers and chicken fanciers from all over the State came to discuss different breeds of birds and to take notes on the proper kinds of fowls to use for home and commercial purposes. The Rhode Island Reds and the White Wyandottes appeared to attract the most attention from visitors, although all varieties came in for attention and comment.

A pen of little Buff Cochins bantams was an attraction on the second floor of the exhibition room, and was decorated with five ribbons, including two first and two second prizes. Near by a family of Houdans, which resembled the Silver Polish, was examined critically by many who could not distinguish the difference between the two breeds. One pen of Light Brahmas, apparently the only one of the kind on exhibition, received three first prizes for their class.

Record in Prizes.

The Polish birds made a record for the number of prizes taken and displayed twenty-three ribbons for the twenty-seven birds on exhibition. One of these birds received the unusually high score of 96 points. The Buff Orpingtons of Mr. Batchelor of this city and several pens of the same variety from an exhibitor whose name could not be learned, from Provo, made an excellent showing.

The exhibit of pigeons made by members of the Utah Pigeon club is said to be the finest of its kind ever held in the State. Nearly all of the pigeons have recently been imported from Eastern States and include many of the best known varieties. There are Pouter, in blue, white and black colors; white Fantails, Jacobins, English and Chinese owls, Turbits, trumpeters, archangels, homers, dragons, and barbs. There is also an unusually good display of the well-known tumblers, both clean-legged and muffed in different colors. They appear in black suits, in white, red, blue and silver, and with saddle backs. A pair of parrot rollers recently brought into this State from Pennsylvania, and considered the best in the country, was on exhibition.

Object to the Raise.

The continued noise and confusion and the close confinement and disturbance at the exhibition had evidently begun to tell on the birds Thursday, and it was a common sight to see several of them fast asleep with blinking eyes, as if undecided whether to succumb to the influence of Morpheus or not. The cocks were as wakeful as the day before, however, and crowded no less lustily and taunted their neighbors from the safety of their places behind the bars of their pens.

By Thursday night most of the prizes had been awarded and the ribbons had been pinned up in front of the pens of the proud owners. The complete list of prizes will not be given out until Friday, however, probably in the afternoon, on account of the labor connected with the making up of averages.

As far as could be learned Thursday, no sales of birds had been made, although many of them were marked for sale. As an illustration of the prices charged, one fine cock was offered for \$7.50, and one cock with three hens was held at \$15.

Friday is Ladies' day at the exhibition and ladies will be admitted free.
